

NOTICED MORE PLANE NOISE?

WHAT'S GOING ON?

Brisbane Flight Path Community Alliance brings together all community members and groups negatively impacted by aircraft noise and pollution across the wider Brisbane area. We lead the campaign for better flight paths, a curfew, and a flight number cap at Brisbane Airport.

Airservices Australia and Brisbane Airport Corporation want an **unlimited number of planes flying over greater Brisbane** to make them rich.

Their solution to the devastating noise pollution this is causing is to “share” it to new suburbs, including yours. BFPCA is fighting for a better solution including a **curfew** and a total **flight cap** just like Sydney Airport has.

Sign up to our newsletter and phone tree for more information about BFPCA and how you can be involved.
