

# 1600 FLIGHTS A DAY? NO WAY!

## REJECT THE BRISBANE AIRPORT 2026 MASTER PLAN

- ✓ **More noise** – almost 600,000 flights a year by 2046.
- ✓ **No curfew, more sleepless nights** – freight and cargo flights locked in between 10pm and 6am.
- ✓ **Toxic pollution** – general aviation still fly 50-year-old planes over Samford Valley using leaded avgas fuel.
- ✓ **Engagement theatre** – no letterbox drops, no genuine consultation with affected communities.
